The goal of the University of Alabama at Birmingham Interdisciplinary Breast Cancer Training Program (IBCTP) is to educate and train predoctoral students in a multidisciplinary environment with a focus on breast cancer research. The aims are to 1) recruit predoctoral trainees to the Interdisciplinary Breast Cancer Training program; 2) assure that predoctoral trainees obtain a broad-based breast cancer education and carry out interdisciplinary breast cancer research; 3) administer this program with sufficient oversight to ensure high-quality education and training, efficient completion of degree requirements, and productive research careers. For academic year 2004-2005, we recruited 2 new students, had one previous student transfer to another program, resulting in a total of 10 students in the IBCTP (six more than initially recommended by the study section). Two students have been accepted for Ph.D. candidacy. The IBCTP hosted 12 scientists to present seminars on cancer related research and to talk to the predoctoral trainees. The Breast Cancer Causation and Regulation course and Breast Cancer Journal Club received "very good" evaluations. Seven abstracts/presentations were made by 4 students at scientific meetings. One Susan Komen predoctoral grant was renewed and two new research grants were awarded to faculty, in part, because of student data used in the preparation of the grant applications.

## **INTRODUCTION**

The goal of the University of Alabama at Birmingham Interdisciplinary Breast Cancer Training Program (IBCTP) is to educate and train predoctoral students in a multidisciplinary environment with a focus on breast cancer research. The aims are to 1) recruit predoctoral trainees to the IBCTP; 2) assure that predoctoral trainees obtain a broad-based breast cancer education and carry out interdisciplinary breast cancer research; 3) administer this program with sufficient oversight to ensure high-quality education and training, efficient completion of degree requirements, and productive research careers. Our training program is designed to prepare and motivate trainees to pursue careers in the fields of breast cancer causation, prevention, diagnosis, therapy and education.

## **BODY**

The executive committee is the same as last year: Dr. Danny Welch (Mechanisms of Growth Control), Dr. Therese Strong (Gene Therapy), Robert B. Diasio (Cancer Pharmacology), Clinton Grubbs (Chemoprevention), Charles N. Falany (Cancer Causation), and Dr. Coral A. Lamartiniere (Program Director), plus one new elected student/trainee, Tim Whitsett. The executive committee is responsible for interviewing and selecting prospective IBCTP students, developing and implementing the academic and research program, review of individual student progress, the budget, and participating in Quarterly and Annual Program reviews.

## **TASKS FOR YEAR FOUR (9/03 - 8/04)**

- 1) Schedule IBCTP seminar speakers (Aim 2).

The APPENDIX contains the list of breast cancer seminar speakers (pages 10 and 11).

- 2) Hold quarterly program reviews (Aim 3).

Quarterly program reviews were held by the executive committee to discuss recruitment, the progress of the trainees, the curriculum and the evaluation of courses. Two new students were recruited: Sarah Jenkins and Heath McCorkle.

- 3) Monitor progress of trainees (Aim 3).

At the quarterly meetings, progress of individual students was discussed. At the end of the summer meeting, laboratory evaluations turned in by the mentors were taken into consideration. All 2003 students made satisfactory progress academically (A & B grades) and have selected research mentors: James Cody with Dr. Joanne Douglas (gene therapy), April Adams with Dr. Kurt Zinn (imaging); Kevin Roarty with Dr. Rosa Serra (TGF-beta in mammary). A list of students, research topic and mentors is provided in the APPENDIX (page 9).

- 4) Attend AACR meeting.

Craig Rowell and Tim Whitsett attended and made poster presentations at the AACR meeting in Orlando. The PI was not able to attend because of previous commitments, but was coauthor on 2 abstracts to the AACR meeting. Also, Damon Bowe attended and presented at the Mammary Gland Biology, Gordon Research Conference, Bristol, RI, and Craig Rowell attended and presented at the Susan Komen Breast Cancer Meeting in New York. The PI has attended 3 Breast Cancer and the Environment meetings in Philadelphia, Research Triangle Park NC, and

Washington. A list of all abstracts/presentations is contained in Reportable Outcomes .

5) Hold annual program review (Aim 3).

At the end of the summer executive committee meeting, the following recommendations were made. The Breast Cancer Causation and Regulation course and new format Breast Cancer Seminar Series received very good evaluations and it was recommended that the contents be kept the same. A copy of the Breast Cancer Causation and Regulation course content is enclosed in the APPENDIX (page 12).

6) Prepare and submit annual report to DOD. Submitted.

### KEY ACCOMPLISHMENTS

- The program now has 10 predoctoral Breast Cancer students in good academic standing and/or making good progress in breast cancer research. One (Chantelle Bennetto) has decided to switch field (to pharmacy). The second year students, (James Cody, April Adams and Kevin Roarty) have selected their mentors (Drs. Joanne Douglas, Kurt Zinn and Rosa Serra, respectively, all breast cancer research).
- Two students Craig Rowell and Damon Bowe have been admitted into candidacy for the Ph.D.
- For academic year 2004-2005, 6 applicants (from 30 completed applications) were interviewed and fellowships were offered to and accepted by 2 students (Sarah Jenkins and Heath McCorkle). Their credentials are provided in the APPENDIX (page 8).
- The appendix contains the lectures for the Breast Cancer Causation and Regulation course (page 12). The 2003-2004 course received a "very good" evaluation.
- Renewed Susan Komen Breast Cancer Predoctoral Award for one student and received 2 new breast cancer research grants based in part on preliminary data from 2 trainees (listed in Reportable Outcome).

### REPORTABLE OUTCOMES

1) Presently, we have 10 students enrolled *via* the IBCTP.

2) Published Abstracts

**Bowe, D.B.**, Jones, M., Sadlonova, A., Page, G.P., Allison, D.B., and Frost, A.R.: "Age-related gene expression profiles for invasive breast carcinomas in pre- and post-menopausal women." Mammary Gland Biology, Gordon Research Conference, Bristol, RI, June 1-6, 2003.

Whisenhunt, T.W., Yang, X., **Bowe, D.B.**, Toleman, C.A., Paterson, A.J., Kudlow, J.E. "Escaping Repression at Estrogen Promoters: Regulated Coactivators in Repression Complexes." Cambridge, U.K., March 18-21, 2004.

**Cody, J., Lyons, G., and Douglas, J.** A Dual-Action Armed Replicating Adenovirus for the Treatment of Bone Metastases of Breast Cancer. *Mol. Ther.* 9, S370, 2004.

**C. Rowell**, G. Puckett, K. Roarty, M. Kirk, L. Wilson, M. Carpenter and C. A. Lamartiniere, "Serum profiling and biomarker discover of rat mammary tumors using mass-coded abundance tags (MCAT)" 95<sup>th</sup> Annual meeting of the American Association for Cancer Research, Orlando, FL, 2004.

**Whitsett T**, Wang J, and Lamartiniere CA. Steroid coactivator GRIP-1 regulation with genistein in the rat mammary gland. 95<sup>th</sup> Annual meeting of the American Association for Cancer Research, Orlando, FL, Proceedings, Volume 45:661. 2004.

**3) Renewal of Predoctoral Award**

Susan Komen Breast Cancer Predoctoral Award (DISS0201242)

P.I.: Dr. C.A. Lamartiniere; Predoctoral Student: Craig Rowell

First year: \$30,000; Total: \$60,000; 5/1/03 – 4/30/05

Grant Title: Effects of Genistein and TCDD on the Maturation of the Rat Mammary Gland: Alterations in Protein Tyrosine Kinase Activity and Signaling.

**4) Research grants received in part because of preliminary data produced by Breast Cancer predoctoral students, Craig Rowell and Tim Whitsett.**

Center for Nutrient-Gene Interaction in Cancer Prevention. NIH NCI P20 CA93753-02, S. Barnes, Center Director. Project 1. Polyphenols: Mammary and Prostate Cancer Chemoprevention. (C.A. Lamartiniere, C.A., P.I.). \$833,638. 6/1/03-9/30/08.

Center for the Study of Environment and Mammary Gland Development. NIH/NIEHS. 1U01 ES012771-01. J. Russo, Fox Chase Cancer Center, Director; Lamartiniere, Co-PI. 9/29/03 – 7-31-/10. UAB PI share: \$1,540,000.
